

Game Codes for the Jackpot Ticker System

The game codes and game group codes are used in the jackpot ticker system for requesting jackpot information.

A. Progressive Games with Global Jackpot

A global jackpot is collected across the entire Playtech progressive network. The following game codes are used for requesting jackpot information about progressive games with a global jackpot.

B. Progressive Games with Local Jackpot

The following game code is used for requesting jackpot information about progressive games with a local jackpot. A local jackpot is collected within the casino, not across the entire Playtech progressive network.

Game name	Game type	Bet size	Game code
Caribbean Stud® Poker	Progressive video poker	\$1	car

C. Game Group Codes

The game group codes are used for requesting jackpot information about a specific game group. Individual games with the same name but different coin sizes belong to one game group. For example, all versions of Safecracker (with coin sizes of 25¢, 50¢ \$1, and \$5) are included in one game group called **Safecracker**, and the group code is sc. The jackpot information of a group is the total of all jackpot information for each separate game within that group.

Game name	Game type	Group code
Jackpot Adventure – Minor Pink Jackpot	Progressive jackpot	adv-2
Jackpot Adventure – Major Pink Jackpot	Progressive jackpot	adv-3
10-Line Jacks or Better	Multi-line progressive video poker	jb10p
